

## FGM, Inc. on Winning Team for US Strategic Command Systems and Missions Support (USAMS II) Contract Task Order

Press Release

FGM TO PLAY AN ESSENTIAL ROLE ON SUCCESSFUL CONTRACT AS A KEY MEMBER OF THE CACI TEAM SUPPORTING THE JOINT INFORMATION OPERATIONS WARFARE CENTER (JIOWC)

RESTON, VA – August 21, 2009 – FGM, Inc. announced today that the U.S. Department of Defense has awarded the CACI team the Joint Information Operations Warfare Center (JIOWC) Information Operations Support to Combatant Commands Task Order bid through the United States Strategic Command Systems and Missions Support (USAMS II) contract.

Under the JIOWC Information Operations Support to Combatant Commands Task Order, the CACI team will provide the JIOWC and combatant commands with mission-ready Information and Special Technical Operations planners and analysts.

Operating from their newly established Southwest Regional Operations office in San Antonio, Texas, FGM will be providing the defense community with Information and Special Technical Operations support services for planning, coordinating, integrating, and executing Information and Special Technical Operations supporting combatant command deliberate and crisis action planning, exercise planning and execution, and other Joint contingencies.

FGM's Executive VP Guy D'Amour, said: "FGM's senior Information and Special Technical Operations professionals supporting the JIOWC are backed by very highly experienced Information Operations, Strategic Communications and Information Technology professionals who have extensive experience with JIOWC and United States Strategic Command processes and procedures. Most importantly, they have a true appreciation for the critical requirements and priorities of the supported combatant commands, especially those engaged in overseas contingency operations."

### About FGM

Founded in 1987, FGM is an industry leader in providing innovative information technology (IT) services for the Federal government. FGM is headquartered in Reston, Virginia, with offices in Suffolk, Virginia; San Antonio, Texas; Omaha, Nebraska; Honolulu, Hawaii; Colorado Springs, Colorado; and San Diego, California. They specialize in software and systems development and integration, including Service Oriented Architecture (SOA) environments.
